PROFESSIONAL SUMMARY

I am a business analytics graduate student pursuing Data Analyst, Business Analyst, and Business Intelligence Analyst roles. I have hands-on experience in SQL, Python, R, Tableau, Excel, Databricks, AWS, and MicroStrategy. Through projects, both school and personal, I have built ETL pipelines, dashboards, predictive models, KPI reporting, and business analyses using real-world datasets. I have a strong background in data cleaning, data validation, reporting, process improvement, and cross-functional collaboration through experience in a regulated laboratory and an operations environment. I am effective at translating data into insights for technical and non-technical stakeholders and believe my combination of background experience and schooling is an asset to any team.

TECHNICAL SKILLS

SQL & Databases: SQL, T-SQL, MySQL, SQL Server Management Studio, Databricks SQL

Programming: Python, RPython Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, SciPyR

Libraries: dplyr, ggplot2, lubridate

BI & Visualization: Tableau, Tableau Prep, Excel, Jupyter Notebook, RStudio, MicroStrategy

Cloud & Tools: AWS, Linux, Git, GitHub Actions, VS Code, Vercel

Web & Tracking: Google Analytics, Google Tag Manager, HTML/CSS

Analytics: Data Cleaning, Data Validation, ETL, Dashboarding, KPI Reporting, Data Visualization, Predictive Modeling, Regression Analysis, Root Cause Analysis, Decision Modeling, Optimization Modeling, Business Intelligence, Ad Hoc Analysis, Data Storytelling

Collaboration: Cross-functional Collaboration, Stakeholder Communication, Project Management, Training, Documentation

SELECTED PROJECTS

SQL Business Performance Analysis | SQL

- Built an SQL analysis of a SaaS dataset spanning 6 tables and ~98K rows, including staging, data cleaning, type casting, and transformation steps in an ETL pipeline.
- Analyzed customer lifetime value, churn risk, feature adoption, and pipeline conversion, identifying a 5.6% sales win rate.

AI Analytics Copilot | Python, SQL, Streamlit

- Developed a live analytics assistant that answers business questions by generating and executing read-only SQL queries.
- Implemented guardrails to ensure query safety, transparency, and reproducible business analysis.

U.S. Stock Market Index Analysis | Python

- Analyzed 5 major U.S. stock indexes using linear, ridge, lasso, and polynomial regression models.
- Built an automated GitHub Actions workflow to refresh data daily and compared rolling volatility across the dot-com crash, 2008 financial crisis, and COVID downturn.

Career Trends Dashboard | Tableau

- Designed an interactive Tableau dashboard analyzing 10-year career outlook metrics.
- Included metrics such as annual openings, growth, turnover, wages, and education requirements that users can explore by interacting with the dashboard.

WORK EXPERIENCE

Content Reviewer/AI Evaluator

Mercor (Independent Contractor) | August 2026 – Present

- Writes clear rationales for reviewing AI content and follows submission checklists, workflows, and rubrics.
- Assesses AI-generated presentation artifacts for visual quality, style/template adherence, and writing quality.

Medical Laboratory Technician II

Quest Diagnostics, Cincinnati, OH | November 2018 – May 2025

- Processed 150+ samples per day in a high-volume laboratory environment while maintaining accuracy and quality standards.
- Performed data validation, record verification, and documentation review across laboratory systems to maintain compliance with HIPAA and CLIA requirements.
- Monitored workflow issues and organized meetings with teams to address and reduce recurring errors.
- Trained 4+ new technicians and helped create onboarding documentation to standardize procedures.

Operations Coordinator

Lemon Fresh, Cincinnati, OH | September 2006 – December 2017

- Managed scheduling, billing, and operational reporting for 100s of clients utilizing Excel to organize service and route data.
- Maintained high client retention by analyzing customer feedback, service patterns, and route conflicts.
- Tracked operational performance across a 3-vehicle fleet, monitoring route completion and identifying issues early to improve service reliability.
- Improved workflow coordination by maintaining organized records, supporting day-to-day business operations, and resolving recurring scheduling problems.

EDUCATION

M.S., Business Informatics (Business Analytics) | GPA: 4.0

Northern Kentucky University, Highland Heights, KY | September 2024 – December 2026

Relevant Coursework: Database Management Systems, Data Visualization & Analytics, Business Analytics, Decision Analysis, Cloud Computing, IT Project Management, Information Systems in Organizations, Information Security & Governance, Business Intelligence Development, Systems Analysis & Design, IS Capstone

B.S., Cell and Molecular Biology | GPA: 3.4

University of Cincinnati, Cincinnati, OH | September 2013 – April 2018

Relevant Coursework: Statistics, Applied Calculus

CERTIFICATIONS

Strategy Certified Departmental Analyst | Strategy | Issued August 2026 (expires August 2029)

Strategy Certified Business User | Strategy | Issued July 2026 (expires July 2029)

PCEP – Certified Entry Level Python Programmer | Python Institute | Issued February 2023
